# AGM TRIPOD

## PROFESSIONAL TRIPOD WITH PISTOL GRIP

The AGM Professional Tripod with Pistol Grip offers sturdy, professional support for your spotter or camera. With a load capacity of 17.6 lbs and a generous height of 63 inches it features a rubber twist lock on each leg. The tripod chassis is built of anodized cast aluminum for extreme outdoor use.

The center column base thread mount comes with an accessory hook for added stability when utilizing an extra weight and 3 position legs angle adjustment locks for low or uneven terrain.

The AGM Professional Tripod also features a built-in bubble level for precise alignment. The quick-release plate on the head features a standard 1/4"-20 threaded screw for mounting compatible scopes, cameras, or other gear.

### PISTOL GRIP

Experience a new level of shooting confidence, maneuverability and steady viewing. The pistol grip can take the ease of spotting or photographing on a tripod to a new level. The key is the trigger handle. It has an oversized trigger release that you squeeze to release and freely move the head when you move your scope or camera to the desired position. Just release the trigger and the ball head locks firmly into place at any angle. This smooth and natural movement makes the ball head feels more like an extension of your hand. A convenient switch on the body locks and unlocks the quick release shoe which means that the quick release plate can rotate 360° and be locked at any point.

- For easy spotting or photography with your spotting scope or camera mounted on a tripod
- Easy-to-operate pistol grip handle with oversized trigger
- Features a switch for quick 360° rotation of quick-release plate Securely locks into position with the release of the trigger
- With a tilt range of +/- 90° tilt for positioning a camera or a scope at a desired angle
- Built-in bubble level for precise horizontal alignment, you can quickly position your camera by squeezing the trigger and lock it in place by releasing the trigger.
