

BINOCULAR BRIDGE

DUAL-BRIDGE MOUNT FOR PVS-14

The AGM PVS-14 Binocular Bridge is designed to mount two PVS-14 monoculars, which makes it possible to obtain night vision binoculars (hereinafter referred to as goggles). The design of the bridge mount provides adjustment of the interpupillary distance, removal of each of the monocular from the field of view and its switching off.

The Binocular Bridge mount can be installed to the various head and helmet mounts with a dovetail interface.

- **Head/Helmet mountable for hands-free use**
- **Easy one-handed operation for all mechanical adjustments**
- **Fast and easy installation**
- **Lightweight and durable all-metal bracket design**
- **Adjustable goggles interpupillary distance**
- **Low profile when mounted on a helmet**
- **Switch on/off system**

Interpupillary distance Adjustment	58 - 72 mm
Compatibility with Flip-Up Shut-Off System	Yes (with specific interface shoes only)
Material	Aerospace Aluminium
Weight	150 g (5.7 oz)
Dimensions	130x84x51 mm (4.0 x 2.6 x 2.4 in)

Specifications are subject to change without notice. Images are for illustration purposes only.

Commodity Jurisdiction
ECCN: EAR99

Export of AGM G50S mount is controlled by the US International Traffic and Arms Regulation (ITAR) 22 CFR part 120-130 or Export Administration Regulation (EAR) 15 CFR part 730-774. If the specific device is determined to be export-controlled, it may not be exported, transmitted, or provided to any non-US person as defined by the ITAR and EAR without first complying with the export control requirements of the ITAR or EAR. For domestic sales, it is the recipient's responsibility to assure that the item can be legally sold to another party either in or outside of the United States.
