## NIGHT VISION CLIP-ON SYSTEM

The AGM Comanche-22 Night Vision Clip-On (NVCO) system uses the latest advances in night vision clip-on technology. Designed for mid-range nighttime shooting, the Comanche-22 delivers exceptional clarity, reliability, and versatility providing the most significant functionality and features at the lowest possible price.

The Comanche-22 is mounted to a standard Weaver or Picatinny rail in front of an existing day scope; transforming it into a Night Vision Device with no re-zeroing required. This NVCO can be used with day scopes of up to 7x magnification for optimal performance and is equipped with a quick release mount and wireless remote control. It provides unmatched target acquisition and enhanced aiming capabilities, making it extremely practical and effective during the most challenging missions.

- Simple, quick conversion of daytime scopes to NVDs
- Mounts in front of any daytime scope, no re-zeroing required
- Powered by a single Alkaline 1.5V AA or 3V CR123A Lithium battery
- Bright-light cut-off system
- Quick-release mount
- 3-Year Warranty
