

RHINO-STYLE

HELMET MOUNT

The Rhino-style helmet mount is a reliable way to mount professional grade night vision monoculars or goggles securely onto military and commercial helmets for hands-free tactical use during night operations. This mount can be easily installed and allows the operator to add a night vision capability to the helmet. Lightweight and durable, the AGM Rhino-style helmet mount is designed for use with the PVS-7, PVS-14, 6015, and PVS14-Omega night vision devices.
